Graphic Design

Tom has been a successful Graphic Designer for the past five years, working with Mega Churches across Southern California. His designs have help these organization standout above the rest. His clean, simply and modern design style proves his work to be timeless. Working on branding, stationary, banners, billboards, and everything print; he brings the clients vision to life. His skills are not only limited to Graphic Design he is also works with web and video.

Website Design

Tom has designed websites for design studios, churches, non-profits, musicians/artiest and small businesses. He has also been contracted to design websites for other design firms and agencies. Working on HTML, Flash and Web 2.0 sites he has been able to give his clients a CMS that they can control and update on a regular basis. He finds joy in working with websites from beginning to end.

Identity/Branding

Working with start-up companies and organizations, Tom helps them set a vision for who that are and what story they will tell. Successfully branding companies to a target audience, he finds ways to set forth an advertising plan in print, web and video. Tom believes branding/identity is more then just a logo or typography, it's a story about an experience and/or emotion felt when looked at. Tom is efficient in Photoshop, Illustrator, InDesign, Flash, Dreamweaver, After Effects and Microsoft Office applications. He graduated from Platt College of Ontario.
